Index

Note: Page numbers of article titles are in **boldface** type.

A

Athletic injuries, management of, sports season influencing, **4**
treatment of, making decisions regarding, **2**
types of, classification of, **2**

B

Baseball, hand and wrist injuries in, **4–5**
Basketball, hand and wrist injuries in, **5**
Berger capsulodesis, **18**
Blatt capsulodesis, **17**
Boutonniere deformity, acute, surgical management of, **173**
chronic, treatment of, **173–175**
classification and evaluation of, **171**
initial conservative management of, **171–173**
Bowler's thumb, **5–6**
Bowling, hand and wrist injuries in, **5–6**
Boxer's knuckle, **175**
initial conservative management of, **176**
surgical correction of, **176**
Boxing, hand and wrist injuries in, **6**

C

Capitate, fractures of, **54–55**
Capsulodesis, dorsal capsular augmentation with, **16–19**
for lunotriquetral ligament injury, **28, 30**
for scapholunate ligament injury, **19, 20**
primary soft tissue repair of carpal ligament injury with/without, **15–16, 17**
Carpal fractures, other than scaphoid, **51–67**
Carpal ligament injury, arthroscopic debridement in, **13–15**
in athlete, treatment of, surgical techniques for, **11–35**
primary soft tissue repair with/without capsulodesis, **15–16, 17**
Carpometacarpal joints, **70**
Collateral ligament injuries, non-thumb-related, diagnosis and classification of, **112–114**
treatment of, **114**
repair of, complications and management of, **122**
Cycling, hand and wrist injuries in, **7**

D

Dorsal capsular augmentation, with capsulodesis, **16–19**

Clin Sports Med 34 (2015) 193–198

E

- Extensor carpi ulnaris, anatomic reconstruction of, 136–137
 - anatomy and biomechanics of, 135
 - imaging of, 136
 - physical examination of, 135
 - problems of, 134–136
 - treatment of, 136
- Extensor tendons, basic anatomy of, 167
 - extrinsic musculature of, 168
 - injuries of, **167–180**
 - intrinsic musculature of, 168

F

- Finger joint, anatomy of, 100–101
 - imaging of, 101–102
- Finger joint injuries, **99–116**
- Flexor digitorum profundus tendon avulsion, zone 1. *See Jersey finger.*
- Flexor pulley injury, anatomy and mechanics of, 157–158
 - complications of, 163–164
 - diagnosis of, 158
 - graft choice for reconstruction of, 160–161
 - Lister's extensor retinaculum technique in, 162
 - loop and a half technique in, 162
 - postoperative therapy in, 163
 - treatment of, 158–160
 - Kleinert/Weilby technique in, 161–162
 - triple-loop (Okutsu) technique in, 162
- Flexor pulley sheath, normal, 157, 158
- Football and rugby, hand and wrist injuries in, 7

G

- Golf, hand and wrist injuries in, 7
- Gymnastics and cheerleading, hand and wrist injuries in, 7–8

H

- Hamate, fractures of, 56–58, 59
- Hamate hook fractures, 4–5
- Hand and wrist, sports-related injuries of, initial intervention in, 184
 - orthoses for, 190–191
 - protected forward motion in, 186
 - reentry to sport following, 186–189
 - splinting options in, 182–183
 - therapy challenges for athletes, **181–191**
 - treatment principles of, 184–191
 - sports-specific injuries of, **1–10**
- Hockey, hand and wrist injuries in, 8

I

- Interosseous ligament injury, arthroscopic classification of, 14
- Interphalangeal joint injuries, distal, 112
 - classification of, 114
 - physical examination in, 107
 - proximal, 107
 - treatment of, 108–109, 110

J

- Jersey finger, anatomy and mechanism of, 151–152
 - and pulley injuries, in athletes, evaluation and treatment of, **151–166**
 - chronic, and delayed diagnosis, 156
 - postoperative course in, 157
 - diagnosis of, 153–154
 - type I, 152
 - treatment of, 154–155
 - type II, 152–153
 - treatment of, 155–156
 - type III, treatment of, 156
 - type IV, treatment of, 156

L

- Lunate, fractures of, 60–62
- Lunotriquetral arthrodesis, 31
- Lunotriquetral interosseous ligament, injury of, 26–33
 - arthroscopic debridement for, 28
 - ligament reconstruction in, 29–30
 - postoperative care in, 29
 - surgery in, indications and contraindications to, 27–28
- Lunotriquetral ligament injury, arthroscopic debridement of, 15

M

- Mallet finger, acute, closed reduction with percutaneous fixation in, 169–170
 - surgical correction of, 169
- chronic, initial conservative management of, 170
 - surgical correction of, 170
- classification and evaluation of, 168
- initial conservative management of, 169
- Mallet injury, 4
- Metacarpal and phalangeal joints, dislocation without fracture, treatment of, 108–112
- Metacarpal fractures, and phalangeal fractures, 102–114
 - classification of, 73, 74
 - epidemiology of, 69
 - evaluation and initial management of, 73–74
 - imaging modalities in, 74–77
 - in athletes, **69–98**
 - mechanism of injury in, 70

Metacarpal (*continued*)

- nonoperative management of, 106–108
- treatment of, 108
 - complications of, 93–94
 - treatment principles in, 77
- manipulation and splinting of, 77–78
- metacarpal base, 78–79
- metacarpal head, 83, 84
- metacarpal neck, 82–83, 84
- metacarpal shaft, 79–82

O

Orthoses, for sports-related injuries of hand and wrist, 190–191

P

- Phalangeal fractures, 72, 74, 83–85
- and metacarpal fractures, in athletes, **69–98**
 - distal, tuft/shaft, 89, 91
 - intra-articular, base and condylar types, 85–89, 90
 - proximal, 71–73, 76
 - proximal and middle shaft, 85, 86
- Pisiform, fractures of, 59–60

R

- Radial collateral ligament, acute injury of, surgical procedure in, 122
- Return-to-play note, 9
- Rock climbing, hand and wrist injuries in, 8
- Rowing, hand and wrist injuries in, 8

S

- Sagittal band injury, classification and evaluation of, 175
- Scaphoid, anatomy of, 38–39
- Scaphoid fracture(s), **37–50**
- athlete-specific studies of, 46
 - classification of, 39–40, 43
 - imaging of, 40–41
 - incidence of, 37
 - nonunion of, results of, 38
 - risk factors for, 38
 - treatment of, 37–38, 39, 40–41, 41
 - nonoperative, 42–45
 - versus operative, studies comparing, 45–46
 - operative, 45
 - recommendations for, 47–48
 - surgical, complications of, 46
- Scapholunate axis method reconstruction, 21–22, 23, 24, 25
- Scapholunate dissociation, 11
- Scapholunate interosseous ligament injury, 7, 11–12, 24–25

- categories of, 12
- treatment of, indications and contraindications to, 13
- Scapholunate interosseous ligament reconstruction, 19–26
- Scapholunate ligament injury, arthroscopic debridement of, 15
 - outcomes for, 15
- Scapholunate ligament repair, primary, 18
- Skiing and snowboarding, hand and wrist injuries in, 8–9
- Soccer, hand and wrist injuries in, 9
- Splinting, injury-specific, 3
 - options for, in sports-related injuries of hand and wrist, 182–183
- Splints, custom-made, 3–4
- Sports injuries, high-level, considerations in, 2
- Sports-specific injuries, and management of, 4–9
- Szabo capsulodesis, 18–19

T

- Tennis and racquet sports, hand and wrist injuries in, 9
- Thumb, Bennett and Rolando fractures of, 90–92
 - metacarpal shaft fractures of, 93
 - metacarpophalangeal injuries, assessment of, history taking in, 118
 - physical examination in, 119
 - classification of, 120
 - surgery in, 120
 - metacarpophalangeal joint, anatomy of, 118
 - ulnar collateral and radial collateral ligament injuries of, **117–126**
 - return to sports following, 123–124
 - ulnar collateral ligament injuries of, 5
- Trapezium, fractures of, 53–54
- Trapezoid, fractures of, 62–63
- Triangular fibrocartilage complex, 128–133
 - anatomy and biomechanics of, 128–129
 - open repair of, 133–134
 - complications of, 134
 - postoperative management of, 134
 - surgical approach for, 133
- Triangular fibrocartilage complex injuries, 5
- Triquetrum, fractures of, 51–53

U

- Ulnar collateral ligament, acute injury of, surgical procedure in, 120–121
 - acute tear of, 124
 - chronic injury of, surgical procedure in, 121–122
- Ulnar metaphyseal closing wedge osteotomy, 138–140
- Ulnar nerve dysfunction, 7
- Ulnocarpal impaction, 137–138
 - imaging in, 137–138
 - physical examination in, 137
 - taking patient history in, 137
 - treatment of, 138

V

Volleyball, hand and wrist injuries in, 9

W

Wrist and hand, sports-specific injuries of, **1–10**

Wrist pain, nonspecific, cessation of sports/training in, psychological impact of, 148–149
counseling in, 149

in gymnasts and cheerleaders, **143–149**

demands in, 144–145

differential diagnosis of, 146

evaluation of, 146

imaging in, 146–147

onset and prevalence of, 144

patient-specific characteristics of, 145

presentation of, 146

surgical intervention in, 147–148

training regimen in, 144

of unknown cause, 148

ulnar-sided, in athlete, **127–140**

imaging of, 131–132

nonoperative treatment of, 132

operative treatment of, 132–133

physical examination in, 129–130, 131

taking patient history in, 129
